

30 Ways to Discovery Education

Learn how Discovery Education can serve as your daily learning platform with 30 Ways to DE Calendar! From signing in to creating engaging learning experiences to utilizing Quiz, this calendar features our most popular tools, features, and resources. Here are the top 5 tips to help you get started.

1

Personalize the Student Experience

Built-in supports with the Video Player page, like closed captioning, transcripts, and segmentation of videos, give you the opportunity to meet the differentiated learning needs of your students.

2

Timely & Relevant Ready-to-Use Activities

Head to the Activity Center for ready-to-use activities curated into monthly calendars for K-2, 3-5, and 6-8. You'll save time and effort with pre-built activities for each day of the week to support your lessons.

3

Check for Understanding with Quiz

Finished a lesson and want to capture student understanding? Launch a Live Quiz, Video Quiz, or Standard Quiz to get a quick pulse on student learning and see real-time results to make informed decision about what's next.

4

Build an Activity

Focus on your daily lesson needs with a time-saving tip to build an activity. Just search for a piece of content, then click on "Build an Activity" to get started. Choose from Studio Slideshow or Video Quiz.

5

Educator Supports

From how to get started to what's popular with other DE educators, find a wealth of professional learning resources and more in the Educator Supports Channel.
